ABOUT MY CAREER

As a current student in third year, I have gained a solid foundation in programming through my academic studies. However, I understand that practical experience is essential in the field of programming. To supplement my academic studies, I have actively sought out opportunities to gain practical experience. I have built my own projects, attended coding events and seminars, and practiced on coding platforms. Through these experiences, I have honed my skills in programming and gained valuable exposure to real-world projects.

WORK EXPERIENCE

- **Backend Developer at ONE Albania**
  03/2023 – 04/2023

- **.NET Developer Internship at IkubInfo**
  12/2023 – 02/2024

ACADEMIC BACKGROUND

⊕ IkubInfo Academy – C#, .NET Bootcamp

⊕ Epoka University – Ba. in Software Engineering

PERSONAL PROJECTS

- **Library Management System**

This project represents a comprehensive Library Management System built using JavaFX, offering a user-friendly interface for efficient library operations. With MVC design pattern and 3 roles authorization this project is a fully functional software.

- **Psychology Clinic Management System**

Built with a 3-Layered Architecture and MVC in C#, this web-based Psychology Clinic Management System ensures secure sign-ins for admins and clients. Clients can manage appointments and payments, while admins benefit from an efficient dashboard. The system prioritizes a seamless experience for both clients and administrators in psychology clinic.

EXTRACURRICULUM ACTIVITIES

- *Junction Hackathon*
- *Google Developers Club - Core Team*
- *Organising DevFest Albania 2023*

PROFESSIONAL SKILLS

Java
FX , Join-Fork Frameworks

C# - .NET Core
Entity, Identity Frameworks

Software Architecture
3 Layered Architecture

Design Patterns
MVC, REST API

Software Testing
Unit Testing, Integration Testing

Software Modeling
ERD, RS, Activity,Class Diagrams

SOFT SKILLS

Dedication

Quick Learning

Problem Solving

Time Management

Teamwork

LANGUAGES

English - Full Professional – Aptis Certified
Italian   - Intermediate Level
Albanian- Native

CERTIFICATION LINKS

- • Certificate of completition International Virtual Internship by Vodafone
- • Certificate of competition by Albania ICT – Python Programming Language
- • Certificate of completion by Datamax & Holberton School in Introduction to Machine Learning
- • Certificate of completion by Epoka University in Excel Workshop
- • Certificate of Bootcamp Completition C#, .NET Framework
- • Certificate of competition Junction Hackathon
